

"Bob and Rita have been very flexible, accommodating and easy to work with when setting up their workshops. They have brought their "tools" with them - from their love of each other, their communication skills and just the "right" music to set the "mood" for the workshop. They have worked some of our couples' suggested topics into their workshop.

We have been very happy and pleased to have them provide the Marriage Enrichment couples at St. Joseph's with their "homespun style" (it is natural, no special effects) but lots to think about and work with - their faith, experiences and additional materials for ongoing couple discussions."

We liked Bob & Rita so much that have invited them back to present another program.
